

#### Academics

At HEC, we believe that leadership can be taught. We demonstrate our commitment to leadership by offering a program structure that is dedicated to the principles and practice of leadership, and by exposing our participants to successful leaders, as well as ample opportunities to develop and exercise their own leadership style.

At the HEC MBA, we have expanded the definition of leadership to include a mix of Analytical, Critical, and Experiential skills, applicable to a variety of multicultural environments. By prioritizing personal and professional growth, as well as individual, interpersonal, and collective skills, the HEC MBA offers a new model of management education that places value on the core human competencies that are so critical in today's corporate culture.
