

Employment Statistics

HEC MBA participants have access to leading recruiters and high-level jobs offering top compensation. In fact, the 2008 Financial Times Global MBA Ranking places the HEC MBA Program #2 worldwide for the international mobility enjoyed by graduates and #8 for career progress. The Career Development Service keeps track of the employment history of HEC MBA participants after graduation and undertakes an annual placement survey on recent graduates. Shown below are some career placement highlights for the **HEC MBA Class of 2007**:
