

HEC MBA Scholarships

Once admitted into the HEC Full-Time MBA Program, candidates have the opportunity to apply online for HEC MBA Scholarships. Our scholarships are highly competitive. Our Financial Aid Officer is available to guide applicants toward the appropriate scholarship. You will find below a list that provides details about each of our scholarships.

HEC scholarships fall into various categories: merit-based, need-based, based on a combination of merit and need, or based on specific criteria, as in the case of the Forté Scholarship or the Alcatel Scholarship. Since each HEC MBA Scholarship is different, we advise applicants to launch the application process as early as possible. In some cases, an essay is required.

To be eligible for the scholarships, admitted candidates must supply details about their financial status and how they intend to finance their studies over the duration of the 16-month HEC MBA Program. All scholarship applications are initially completed online. For some scholarships, applicants may be required to attend an interview.

Please note that all admissions decisions are made independently of an applicant's financial situation. All scholarships awarded will be deducted from the last tuition payment. In addition, HEC scholarships cover tuition fees only for courses taken on the HEC campus.
