

Modular Program

At HEC, we understand that flexibility and customization are top priorities for both our part-time participants and their employers. As a result, we have developed a personalized, collaborative approach to curriculum design that takes into account the specific needs and expectations of our candidates and their companies. We will work in close collaboration with you to design courses that are suited to your professional goals and responsibilities, and we even offer the possibility of developing custom-made electives around subjects that are of particular relevance to your industry or job function.

The HEC Part-Time MBA offers a modular program. This program allows you to simultaneously enhance your business knowledge and professional network, and is an excellent opportunity to take advantage of our unique, multicultural learning environment.

HEC allows you to customize your curriculum and earn your MBA in an average of 24 months. The Modular program starts in **January 09** and is offered **1 full week every 4–6 weeks**.
